MUSCLE BOUND

**A Novel By
DAVID MARLOW**

Muscle Bound is a tale of gay relationships set in the world of bodybuilding, with its attendant issues of muscle obsession, gym addiction and steroid abuse.

What the Critics are Saying:

"David Marlow has always been a fine writer, but now, in his first gay novel, he proves that you can be literate, wise, sexy, and tell a great narrative story filled with interesting, well-observed characters and moving, viable situations all at the same time. If you are interested in how far the limited, overworked, often mundane genre of gay fiction can take you, pop a Viagra and settle down for a very good time indeed.

REX REED

The New York Observer

"This smart, provocative look at the gay bodybuilding culture, the demands it imposes and the price it exacts on bodies and souls, is profoundly insightful, savagely funny, deeply affecting – full of complex, fascinating and very relatable characters in a riveting, page-turning narrative – and sexy as hell."

BARRY SANDLER

Screenwriter- Making Love, Crimes of Passion

"In Muscle Bound, his first gay novel, author David Marlow turns the keen insight and wit that brought his readers the iconic novels *Yearbook* and *I Loved You Wednesday* to the iron-hard world of bodybuilding and muscle-worshipping California gym culture. The result – a virile, romantic, often quite poignant portrait of love, loss, more love, and the pursuit of physical perfection – will stay with the reader long after they finish the book. A solid, sexy read."

MICHAEL ROWE

**Author of *Other Men's Sons* and winner of the 2008
Randy Shilts Award for Nonfiction.**
